Torr Head Tidal Energy Array EIA

ES Table of Contents

April 2015

Table of Contents

1	INTRODUCTION	1-1
1.1	Introduction to Tidal Ventures Limited	1-1
1.2	Benefits of Tidal Energy	1-2
1.3	Background to the Project	1-2
1.4	Project area definitions	1-3
1.5	Consenting strategy	1-5
1.6	Purpose and scope of the document	1-6
1.7	Supporting EIA studies	1-6
1.8	Structure of the ES	1-6
1.9	Contributors to the EIA	1-8
2	NEED FOR THE PROJECT	2-1
2.1	Introduction	2-1
2.2	Overview of key climate change and energy legislation and policy	2-1
2.3	Achieving climate and energy targets	2-2
2.4	Northern Ireland Renewables Obligations (NIRO)	2-3
2.5	Maximising economic opportunity	2-3
2.6	References	2-4
3	PLANNING AND LEGISLATION	3-1
3.1	Introduction	3-1
3.2	Marine planning, policy and legislation	3-1
3.3	Environmental Impact Assessment (EIA)	3-4
3.4	Nature conservation (HRA and wildlife licences)	3-4
3.5	Wildlife licences	3-5
3.6	Onshore planning	3-6
3.7	References	3-6
4	SITE SELECTION AND ALTERNATIVES	4-1
4.1	Background to site selection	4-1
4.2	Initial site evaluation	4-4
4.3	Project design – offshore Project	4-5
4.4	References	4-9
5	PROJECT DESCRIPTION	5-1
5.1	Introduction	5-1
5.2	Design envelope approach	5-1
5.3	Project overview	5-2
5.4	Project timescales	5-3
5.5	Offshore infrastructure / tidal array	5-5
5.6	Offshore cables and landfall	5-12
5.7	Offshore installation - turbines	5-17

5.8	Offshore installation – export cables and landfall	5-20
5.9	Offshore operations and maintenance	5-23
5.10	Decommissioning	5-26
5.11	Vessel inventory	5-26
5.12	Other Torr Head Project components	5-27
5.13	Developing the onshore Project	5-27
5.14	References	5-31

6 CONSULTATION PROCESS **6-1**

6.1	Introduction	6-1
6.2	Approach to stakeholder engagement	6-1
6.3	Pre-application consultation	6-3
6.4	Onshore Project consultation	6-8
6.5	EIA scoping	6-8
6.6	Public Consultation Event	6-9
6.7	ES pre-submission consultation	6-10
6.8	Post submission consultation	6-10
6.9	References	6-11

7 ENVIRONMENTAL OVERVIEW **7-1**

7.1	Introduction	7-1
7.2	Physical characteristics	7-1
7.3	Biological characteristics	7-2
7.4	Human environment	7-3

8 EIA APPROACH AND METHODOLOGY **8-1**

8.1	Introduction	8-1
8.2	EIA approach	8-1
8.3	EIA scoping	8-1
8.4	EIA and preparation of the Environmental Statement (ES)	8-2
8.5	Environmental Impact Assessment process	8-3
8.6	Characterisation of the baseline environment	8-4
8.7	Environmental management and monitoring	8-15
8.8	Habitat Regulation Assessment (HRA)	8-15
8.9	References	8-15

9 BENTHIC AND INTERTIDAL ECOLOGY **9-1**

9.1	Introduction	9-1
9.2	Legislative framework and policy context	9-2
9.3	Scoping and consultation	9-5
9.4	Baseline description	9-6
9.5	Impact assessment	9-26
9.6	Impacts and mitigation during construction and installation	9-30
9.7	Impacts and mitigation during operation and maintenance	9-38
9.8	Impacts and mitigation during decommissioning	9-42
9.9	Potential variances in environmental impacts	9-42
9.10	Cumulative and in-combination impacts	9-43
9.11	Habitats Regulations Assessment (HRA)	9-45

9.12 Proposed monitoring	9-45
9.13 Summary and conclusions	9-45
9.14 References	9-46

10 MARINE MAMMALS **10-1**

10.1 Introduction	10-1
10.2 Legislation and policy	10-2
10.3 Scoping and consultation	10-2
10.4 Baseline description	10-5
10.5 Impact assessment	10-35
10.6 Impacts and mitigation during construction and installation	10-41
10.7 Impacts and mitigation during operation and maintenance	10-51
10.8 Impacts and mitigation during decommissioning	10-67
10.9 Potential variances in environmental impacts	10-68
10.10 Cumulative and in-combination impacts	10-69
10.11 Habitats Regulations Assessment (HRA)	10-71
10.12 Proposed monitoring	10-72
10.13 Wildlife licences	10-72
10.14 Summary and conclusions	10-72
10.15 References	10-73

11 ORNITHOLOGY **11-1**

11.1 Introduction	11-1
11.2 Legislation and policy	11-1
11.3 Scoping and consultation	11-3
11.4 Baseline description	11-7
11.5 Summary of baseline environment	11-33
11.6 Data gaps and uncertainties (baseline)	11-33
11.7 Impact assessment	11-34
11.8 Impacts during construction and installation	11-40
11.9 Impacts during operation and maintenance	11-48
11.10 Impacts during decommissioning	11-57
11.11 Potential variances in environmental impacts	11-57
11.12 Cumulative and in-combination impacts	11-58
11.13 Habitats Regulations Assessment (HRA)	11-63
11.14 Proposed monitoring	11-63
11.15 Summary and conclusions	11-64
11.16 References	11-65

12 FISH AND SHELLFISH ECOLOGY **12-1**

12.1 Introduction	12-1
12.2 Legislation and policy	12-1
12.3 Scoping and consultation	12-3
12.4 Baseline description	12-4
12.5 Summary of baseline environment	12-16
12.6 Impact assessment	12-17
12.7 Impacts and mitigation during construction and installation	12-21
12.8 Impacts and mitigation during operation and maintenance	12-26
12.9 Impacts and mitigation during decommissioning	12-34
12.10 Potential variances in environmental impacts	12-34
12.11 Cumulative and in-combination impacts	12-35

12.12 Habitats Regulations Assessment (HRA)	12-36
12.13 Proposed monitoring	12-36
12.14 Wildlife licences	12-37
12.15 Summary and conclusions	12-37
12.16 References	12-37

13 COMMERCIAL FISHERIES **13-1**

13.1 Introduction	13-1
13.2 Legislation and policy	13-1
13.3 Scoping and consultation	13-2
13.4 Baseline description	13-4
13.5 Summary of baseline environment	13-20
13.6 Data gaps and uncertainties (baseline)	13-21
13.7 Impact assessment	13-21
13.8 Impacts and mitigation during construction and installation	13-25
13.9 Impacts and mitigation during operation and maintenance	13-29
13.10 Impacts and mitigation during decommissioning	13-32
13.11 Potential variances in environmental impacts	13-32
13.12 Cumulative and in-combination impacts	13-33
13.13 Proposed monitoring	13-33
13.14 Summary and conclusions	13-34
13.15 References	13-34

14 COASTAL PROCESSES AND SEDIMENT DYNAMICS **14-1**

14.1 Introduction	14-1
14.2 Legislative framework and policy context	14-2
14.3 Scoping and consultation	14-2
14.4 Baseline description	14-3
14.5 Assessment methodology	14-22
14.6 Impact assessment and mitigation	14-25
14.7 Impacts and mitigation during construction and installation	14-25
14.8 Impacts and mitigation during operation and maintenance	14-27
14.9 Impacts and mitigation during decommissioning	14-35
14.10 Potential variances in environmental impacts	14-36
14.11 Cumulative and in-combination impacts	14-36
14.12 Proposed monitoring	14-37
14.13 Summary and conclusions	14-37
14.14 References	14-38

15 MARINE ARCHAEOLOGY AND CULTURAL HERITAGE **15-1**

15.1 Introduction	15-1
15.2 Legislation and policy	15-1
15.3 Scoping and consultation	15-2
15.4 Baseline description	15-4
15.5 Data gaps and uncertainties	15-17
15.6 Impact assessment	15-17
15.7 Impacts and mitigation during construction and installation	15-20
15.8 Impacts and mitigation during operation and maintenance	15-25
15.9 Impacts and mitigation during decommissioning	15-26
15.10 Potential variances in environmental impacts	15-26
15.11 Cumulative impacts	15-26

15.12	Proposed monitoring	15-27
15.13	Summary and conclusions	15-27
15.14	References	15-27

16 SHIPPING AND NAVIGATION **16-1**

16.1	Introduction	16-1
16.2	Legislation and policy	16-3
16.3	Scoping and consultation	16-3
16.4	Baseline description	16-5
16.5	Summary of baseline environment	16-15
16.6	Data gaps and uncertainties (baseline)	16-16
16.7	Impact assessment	16-16
16.8	Impacts and mitigation during construction and installation	16-19
16.9	Impacts and mitigation during operation and maintenance	16-21
16.10	Impacts and mitigation during decommissioning	16-28
16.11	Potential variances in environmental impacts	16-28
16.12	Cumulative and in-combination impacts	16-28
16.13	Monitoring	16-30
16.14	Summary and conclusions	16-30
16.15	References	16-30

17 SEASCAPE, LANDSCAPE AND VISUAL IMPACT ASSESSMENT (SLVIA) **17-1**

17.1	Introduction	17-1
17.2	Legislation and policy	17-3
17.3	Scoping and consultation	17-4
17.4	Impact assessment	17-13
17.5	Impacts during construction and installation	17-19
17.6	Impacts and mitigation during operation and maintenance	17-22
17.7	Impacts and mitigation during decommissioning	17-24
17.8	Potential variances in environmental impacts	17-24
17.9	Cumulative and in-combination impacts	17-24
17.10	Proposed monitoring	17-25
17.11	Summary and conclusions	17-25
17.12	References	17-26

18 SOCIO-ECONOMICS, TOURISM AND RECREATION **18-1**

18.1	Introduction	18-1
18.2	Legislation and policy	18-3
18.3	Scoping and consultation	18-5
18.4	Baseline description	18-7
18.5	Impact assessment and mitigation	18-18
18.6	Impacts and mitigation during construction & installation	18-20
18.7	Impacts and mitigation during operations & maintenance	18-25
18.8	Impacts and mitigation during decommissioning	18-27
18.9	Potential variances in environmental impacts	18-27
18.10	Cumulative and in-combination impacts	18-27
18.11	Proposed monitoring	18-29
18.12	Summary and conclusions	18-29
18.13	References	18-29

19 WATER ENVIRONMENT AND ACCIDENTAL EVENTS **19-1**

19.1	Introduction	19-1
19.2	Legislation and policy	19-1
19.3	Scoping and consultation	19-3
19.4	Baseline description	19-3
19.5	Impact assessment	19-4
19.6	Impacts and mitigation during construction and installation	19-7
19.7	Impacts and mitigation during operation and maintenance	19-11
19.8	Impacts and mitigation during decommissioning	19-12
19.9	Potential variances in environmental impacts	19-12
19.10	Cumulative and in-combination impacts	19-12
19.11	Proposed monitoring	19-12
19.12	Summary and conclusions	19-12
19.13	References	19-13

20 OTHER SEA USERS **20-1**

20.1	Introduction	20-1
20.2	Legislation and policy	20-1
20.3	Scoping and consultation	20-1
20.4	Baseline description	20-1
20.5	Data gaps and uncertainties (baseline)	20-4
20.6	Impact assessment	20-4
20.7	Impacts and mitigation during construction and installation	20-7
20.8	Impacts and mitigation during operation and maintenance	20-11
20.9	Impacts and mitigation during decommissioning	20-13
20.10	Potential variances in environmental impacts	20-13
20.11	Cumulative and in-combination impacts	20-13
20.12	Mitigation requirements for potential cumulative and in-combination impacts	20-14
20.13	Summary and conclusions	20-14
20.14	References	20-14

21 ENVIRONMENTAL MANAGEMENT AND MONITORING **21-1**

21.1	Introduction	21-1
21.2	Environmental Management Plan (EMP)	21-1
21.3	Environmental Monitoring Strategy (EMS)	21-6
21.4	Interface with contractors	21-10
21.5	Environmental awareness and training	21-10

22 ONSHORE PLANNING (PART 2) **22-1**

22.1	Introduction	22-1
22.2	Torr Head Tidal Array - Onshore Project	22-2
22.3	Legislation	22-6
22.4	Scoping and consultation	22-7
22.5	Baseline description	22-7
22.6	Potential environmental impacts	22-17
22.7	Potential cumulative and in combination impacts	22-23
22.8	Summary and conclusions	22-24
